## MOBILE HEALTH

We appreciate this unique opportunity to partner with the City of Odem to support the current EMS System. We have a strong reputation in South Texas of building relationships with the community agencies, organizations, residents, and their families. Remaining consistent with our core values, which include compassion, leadership, integrity, modern, and benevolence, (CLIMB). Allegiance Mobile Health has become one of the most trusted names in EMS in Texas.

Maintaining coverage and response time compliance for 911 systems is one of the most challenging situations for an EMS agency. At Allegiance Mobile Health, we are experts in the delivery of rural 911 system management. Each system we operate is specifically tailored to the needs of that community as each one has its own unique set of needs. As one of the largest privately owned providers of emergency and non-emergency services in Texas, we take pride in our ability to provide these services. Our mission is to improve lives in the communities we serve by making high quality healthcare, mobile.

Furthermore, we are dedicated to comprehensive quality improvements in all aspects of our service. These commitments and enhancements will increase the operational efficiency and provide a constant cohesive response to the needs of your EMS System.

With our expertise in these areas of EMS systems we are confident we can seamlessly support the EMS services in Odem with the highest level of patient care and equipment. Our goal is to establish a long standing working partnership which will continuously benefit the patients and community.
